

**Strole-private property access, T47N R12W Section 13, N.M.P.M.**

**Project description**

Issue permit for use of existing road to 80 acre private inholding on the Uncompahgre Plateau. The road is located in the beginning section of the Buck Trail #149. It begins at Hwy 90, goes under the Tristate line. At this point, the Buck Trail forks left just south of the private land and continues around the perimeter of the private land. The road to the private property forks right. The route travels over flat, dry and sandy terrain. There is a logging unit in aspen that it goes through, north of the power line.

The route is open to motorcycles and to Tri-State for operation/maintenance of the Tri-state line, then the trail is open to motorcycles from there. The Uncompahgre Travel Plan Decision shows the routes as having motorized seasonal restrictions July 1 to Labor Day, and as Administrative access to private land.

**Acres or feet (of impact areas) if known approx 3960' x 15' wide\_**

**Previous projects, entries (timber sales, Rx Burns), or arch. surveys in the area or previous project names :** -Tri-state line, Parallel Trail, logging in the area

## Strole Access
